# KWAME ALGEBRA'S "ONTUA" DESERVES AN INTERNATIONAL AWARD, LETS SUPPORT HIM.

We at [www.ghanapubliceye.com](http://www.ghanapubliceye.com) have sharp lenses for both good and bad stuff. With an agenda to help promote our motherland and to redeem its dented image, our reportage hits both the good and the bad in the areas of entertainment, sports, lifestyle, politics and tourism devoid of malice.

In the entertainment world, there seem to be less or no attention for our underground acts.

The attention is always on the established acts forgetting that, these A-list stars will one day be irrelevant and the people to carry on their legacies after their irrelevance will be these upcoming ones.

In our quest to challenge the status-quo and to ensure that the media is fair to all, our entertainment team in their own small way has placed it on their hearts to give a weekly publication to some talented individuals fighting hard to be recognized or to blow just so they don't feel neglected.

## KWAME ALGEBRA'S "ONTUA" DESERVES AN INTERNATIONAL

Tried as we could, our sharp media lens couldn't just ignore a talent by name 'Kwame Algebra'.

Checking his background and the kind of songs he has produced over the years, our jaws dropped opened.

Drawing closer to this talent and listening to some of his works, [www.ghanapublic.com](http://www.ghanapublic.com) can boldly report that, he is far better than some of this artiste we pay much attention to. His musical dexterity is beyond imagination as he is extra talented when it comes to music creation.

Not to think we are over hyping him (Kwame Algebra), find time and follow some of his works and you will understand exactly what we are reporting.

Algebra is ready to release his latest studio single dubbed "ontua" which features Danso Abiam come Friday. [www.ghanapubliceye.com](http://www.ghanapubliceye.com) is sure to upload the song on this platform right after its been released.

Let's support good talent because that is the only way to secure the future of our entertainment industry.

We at [www.ghanapubliceye.com](http://www.ghanapubliceye.com) says ayekoo to team Algebra, keep souring higher with your talent.
